

THANKS TO YOUR GENEROSITY

youth across the province are learning critical thinking and leadership skills through participation in 4-H programs.

9 out of 10

youth say they have increased leadership skills because they attended a 4-H program in 2021

Every youth has the potential to become the next great leader, thinker and innovator provided they have the right tools and encouragement.

A favourite part of youth experience in a 4-H club is how the environment allows them to truly experience and gain the information that is being presented.

1153

4-H volunteers participated in learning opportunities

1563

total youth participants in virtual programming

In 2021 our volunteers and members stepped up during the pandemic and pivoted quickly to the virtual world by hosting virtual clubs, dropping awards off at members' homes and staying engaged through online training.

We introduced both self-directed and digital activities to help those with internet challenges.

4-H'ers got creative in how they could participate in 4 H and help serve their communities. 4-H volunteers and members were still active- just a little further apart.

Click here to watch our [video](#). You made a difference in 2021. Thank you for helping youth across Ontario to reach their full potential.

CANADA
4-H Ontario

"Better" is the one word that goes with everything when I think about 4-H. Better person, better friend, better leader, better choices, better prepared. Without 4-H, I would not be the person I am today."

- 4-H Youth

"For me, I can't even picture a world without 4-H as it has opened the doors to so many **new experiences and friendships**, and because of that, I wouldn't trade it for anything."
