ONTARIO ONT DAIRY BREEDS

FOR IMMEDIATE RELEASE

ONTARIO JOINT DAIRY BREEDS COMMITTEE NAMES 2020 FUTURE LEADERS SCHOLARSHIP WINNERS

The Ontario Joint Dairy Breeds Committee has selected its' 2020 Future Leaders Scholarship Winners.

Sydney Cain, an Honour Roll, student has been active member for Brant County 4-H for the last ten years completing numerous clubs ranging from dairy to scrapbooking and holding many Executive and Officer positions during that time. She represented Brant county at multiple events including Go-for-the-gold and the TD Dairy Classic. Additionally, Sydney found time to play both soccer and rugby while actively volunteering for the church, many community events, Parish & District Highschool and chaperoning the OPP organized weekend at Tim Horton's Onondaga Farm Camp.

In 2017 Sydney joined the Junior All Ontario Program and registers cattle under her own prefix. To further her goals of breeding animals that are conformationally correct and strong milk producers she plans to complete her Bachelor of Science in Agriculture at the University of Guelph, majoring in Animal Science with a businessrelated minor.

Congratulations Sydney!

Growing up on a dairy farm surrounded by agriculture is something I am very grateful for. I have seen how passionate the people of the agriculture industry are and that is something I want to be a part of for the rest of my life. One of my main goals is to pursue an education in something that I am very passionate about.

-Sydney Cain Paris, On

I chose to pursue a career in agriculture due to my passion for dairy cattle which I've had since a very young age. I see this program as a way to give myself a greater understanding of not just how to do things on a farm, but also why we do them to ensure the best quality of care for our livestock. I believe this program has and will continue to make me a better and more informed farmer, as well as a better more informed representative for the industry.
